

Yousha Rashid

Undergraduate Student — B.Sc. in Computer Science & Engineering (Ongoing)
American International University-Bangladesh (AIUB)

📍 Dhaka, Bangladesh | ✉️ yyousharashid@gmail.com | 📞 01749120150

Objective

Dedicated and detail-oriented Computer Science and Engineering student with strong academic performance and a passion for learning, problem-solving, and developing innovative solutions.

Education

American International University-Bangladesh (AIUB) B.Sc. in Computer Science and Engineering (CSE) CGPA: 3.85/4.00 (Current) Expected Graduation: August 2026	2022–Present
Dhaka City College Higher Secondary Certificate (HSC) Group: Science GPA: 5.00/5.00	2019–2020
Shibchar Nanda Kumar Model Institution Secondary School Certificate (SSC) Group: Science GPA: 5.00/5.00	2017–2018

Publications

Tomato Leaf Disease Detection Using Deep Learning-Based Image Classification

Md. Zahidul Haque, Firoz Ahmed, Yousha Rashid

Presented at: 2026 IEEE 2nd International Conference on Quantum Photonics, Artificial Intelligence and Networking (QPAIN 2026), CUET, Bangladesh

Industry 5.0–Driven Deep Learning Framework for Long-Term Global CO₂ Emission Forecasting

Md. Owafeeuzzaman Patwary, Apurbo Biswas, Yousha Rashid, Md. Rakibul Islam, Kazi Tanvir, Reazul Islam, Dipta Gomes

Published in: International Conference on Electrical, Computer and Communication Technologies

Projects

- **Gadget Shop Management System** Fall 2023–2024
Tools: Java, Swing (GUI), Oracle SQL, JDBC
 - Engineered a retail inventory application using Java Swing and Oracle SQL, implementing JDBC-driven CRUD operations to streamline real-time gadget tracking and automated sales transactions.
- **Inventory Management System** Fall 2024–2025
Tools: C#, .NET Framework, Visual Studio, SQL Server
 - Developed a scalable inventory management application using C# and the .NET framework to manage product records, stock levels, supplier information, and sales data with SQL Server integration for efficient data handling and report generation.

- **Tomato Leaf Disease Detection Using Deep Learning** 2025–2026
Tools: Python, TensorFlow, Keras, CNN
 - Developed a deep learning-based image classification model to detect tomato leaf diseases using convolutional neural networks (CNN).
 - Achieved accurate disease prediction to support early detection and improved agricultural decision-making.

Skills

- **Programming:** Python, C++, Java, PHP, HTML, Javascript, CSS
- **Tools:** TensorFlow, Keras, Scikit-learn
- **Data Analysis:** Pandas, Excel
- **Research:** Academic Writing, Data Collection
- **Soft Skills:** Communication, Teamwork, Problem Solving

Leadership Experience

Rotaract Club of Eskaton North 2024–Present
 General Member

Honors & Achievements

- Dean's List Honors, AIUB 2024–2025
- Dean's List Honors, AIUB 2023–2024
- Dean's List Honors, AIUB 2022–2023
- IEEE Conference Paper Presentation (QPAIN 2026)
